

Islamshah Amlani, Ph.D.  
Thunderbird EXIX  
Islamshah@global.t-bird.edu

Islamshah Amlani is an international management professional with a decade long experience in technology management and business development. Currently, he is pursuing the executive MBA program at Thunderbird School of Global Management and will graduate in January of 2011.

Islamshah received the BS degree in Physics and Mathematics from Western Kentucky University and the M.S. and Ph.D. degrees in Electrical Engineering from the University of Notre Dame. He joined the corporate R&D laboratories of Motorola, Inc. in 2000 where he held several technical management positions in the area of nanotechnology.

Islamshah has been actively involved in evaluating potential impact of novel and out-of-the-box technologies for more than a decade. He has extensive experience in molecular electronics, carbon nanotube technology and flexible electronics, and has published more than 50 technical papers in this field including a book chapter in "Carbon Nanoelectronics". He also holds several patents in these fields. He was the Grand Prize winner of the prestigious Worldwide Merrill Lynch Innovations Grant competition. He also received Global Indus Technovator Award at MIT in recognition for his technical accomplishments and leadership. Islamshah has served a multiple year term on the graduate advisory board at the University of Notre Dame. He has been invited to organize workshops on emerging RF nanoelectronics at several international conferences.

Islamshah is passionate about technological innovations and his key interests include commercializing new technologies into lucrative global opportunities.
