

# UsTech™ (YcTex™) Discovery LLC

TECHNOLOGY DISCOVERY @ COMMERCIALIZATION COMPANY

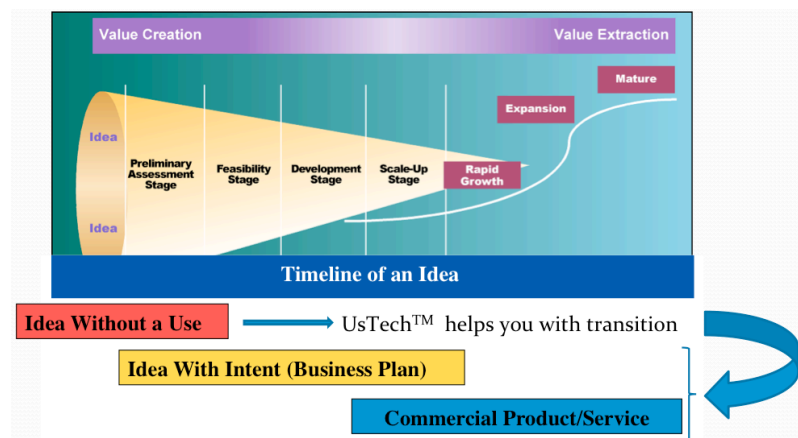

**UsTech Discovery** (from Russian “**sU**ccess of **Tech**nologies”) is a boutique business development and technology transfer consulting firm with focus on developing economies. **UsTech™** is an official *yet2.com, Inc.* ([www.yet2.com](http://www.yet2.com)) partner providing complementary services to Universities, small and large corporations as well as individual inventors and entrepreneurs.

**UsTech™** creates and implements viable commercialization strategy in the shortest period of time possible:

- 1. Business Creation** – we provide business development and management expertise to enable IP owners to build new business.
- 2. Technology Commercialization** – we enable owners of strong IP to extract maximum value through commercial licensing deals with market leaders in a wide variety of industries.
- 3. IP Valuation and Strategy Consulting** – we offer consulting services to assess IP valuation and advisory services to buyers and sellers of IP.

We believe that the unique situation in the developing economies requires highly customized and tightly adapted to the local business culture approach to Technology and Innovation Management. Our combined experiences and global networking offers a unique combination of skills and tools to enable significant shift of the classical technology development paradigm

**UsTech™** is uniquely positioned and has capabilities and tools to identify scientific and technological innovations with the highest potential for commercial use. The company will then pursue to develop, capitalize and commercialize these technologies globally.
